SUBJECT: Attached letters re your effort to get memo of transfer

These letters tell quite a story, especially in the context of all that happened, such as the 1969 meeting in Rowley's office. Here we have Kelley telling A that SS position is that they can't withhold the memo under FOIA. GSA's answer was to tell SS to divest itself of the memo so that it could avoid any FOIA hassles!

Note also that GSA conferred with Justice and got their approval. I suppose this is not new but it may give me more ammo re my request with Justice.

Best,
